

Steam shower i110 Corner

Siffrorna visar i vilken ordning väggarna ska monteras.
Väggarna på layouten är även märkta med materialet. P=Plast, G=Glas, B=Svart glas, D=Glasdörr.

The numbers show in what order the walls should be assembled. The walls on the layout are marked according to material: P=plastic, G=glass, B=Black glass, D=glass door.

Grejer bra att ha
Stuff good to have

1 Montering av golvram Assembly of floor frame

Lägg en sträng med silicon på hörnknutarna enligt bilderna.

Put a string of silicone on the corner joints according to the pictures.

Skjut in hörnknutarna i golvramsprofilerna.

Push the corner joints in to the floor frame profiles.

2

Vänd golvramen upp och ned. Banka in hörnknutarna i golvramsprofilerna så att de säkert går i botten. Skruva fast hörnknutarna och sätt dit ställföterna. Ställföterna skruvas i botten.

Turn the floor frame upside down. Hit the corner joints in to the floor frame profiles. Make sure they go all the way in. Fasten the corner joints and mount the adjustable feet all the way in.

3

Vänd tillbaka golvramen. Torka bort eventuellt överflödigt silikon runt hörnknutarna.

Turn the floor frame back. Wipe off any silicone residues on the corner joints.

4

Placera golvråmen där rummet ska stå. Kontrollera att råmen ligger plant, använd vattenpass. OBS! Det är ett absolut krav att golvråmen ligger plant "i våg" för att slutresultatet ska bli perfekt. Justera stålfötterna med insexnyckeln. Det är viktigt att stålfoten hamnar under ytan där väggarna ska stå.

Place the floor frame where the room should stand. Use a spirit level to ensure the floor frame is plane.

N.B! To reach a perfect result it is of utmost importance that the floor frame is completely Plane. Use the hex key to the adjustable feet. Make sure the screw from the adjustable feet is positioned according to picture.

5

Flytta ut golvråmen om den står nära en vägg för att lätt kunna montera väggarna. Om golvråmen inte är plan när den flyttats, lägg under kilar på de ställen som behöver. Torka rent runt hålen ovanför stålfötterna och sätt dit tätningcirklarna.

To make assembly easier, pull the floor frame out if it is close to a wall. If the floor frame is not plane when moved, use wedges when needed. Wipe the holes clean above the adjustable feet and attach the adhesive circle pieces.

TIPS! För bästa resultat,
polera frontprofilerna
med bilvax.

N.B.! For a better result, polish
the front profiles using car wax.

14.5x5mm

Sätt i listen upp mot taket och klipp av den nertill enligt bild längst ned på sidan. Punktktryck på listen för att fästa den i spåret. Listan får inte tänjas ut.

Put the sealing strip up against the ceiling and cut it off at the bottom according to picture. Push the strip with your hand to fasten it. Make sure the sealing strip is not elongated.

Ta bort listen en liten bit både uppe och nere. Om listen ej går in i spåret längst upp mot taket så klipp bort lite av listen enligt bild. Sätt dit en liten silikonsträng och tryck dit listen igen.

Lift a small piece of the sealing strip at the top and bottom. If the strip doesn't fit at the top, cut a small piece off according to picture. Put a small string of silicone and push the strip back in place again.

30

Skruva först in de båda skruvarna så att de bottnar. Skruva sedan ut dem 5 mm.

First tighten both of the screws firmly. Then unscrew them 5 mm.

31

Vrid skruven medurs för att lossa på locket.

Turn the screw clockwise to loosen the lid.

Koppla loss elkopplingen och de fem snabbkopplingarna för vatten, (2xblå, röd, grön och brun). Lägg sedan locket åt sidan.

Unplug the power supply and the five quick connect couplings for water. (2xblue, red, green and brown). Put the lid away.

33

34

För in en skruvmejsel under pelaren så att den ligger tryckt mot taket. Skruva sedan fast pelaren nedtill.

Put a screwdriver under the column to push it against the ceiling. Then fasten the column at the bottom.

Koppla in el och vatten, anlita behöriga fackmän.
 Connect power and water. Use qualified professional.

LED, TRAFÖ

SPOT LIGHTS

36

Flytta rummet på plats där det ska stå.

Move the room in place.

37

Lossa skruven längst ned på pelaren. Dra ut pelaren nedtill för att komma åt bakom längs med golvet.

Loosen the bottom screw on column. Pull out the column down below to be able to reach the back side along the floor.

38

Lägg en sträng silicon runt om på golvet i duschutrymmet.

Put a string of silicone along the floor frame inside the shower.

39

Skruva fast pelaren.

Fasten the columnn.

40

Ø 3.3 (x3)

Ø 9.5 (x2)

Hål för ventilation
Holes for ventilation

41

Dra åt de båda
övre skruvarna.

Tighten both the
upper screws.

Sätt en siliconklick i
hållet innan skruvarna
sätts dit.

Put a small piece of
silicone in the hole
before the screws.

42

Koppla samman elkopplingen och de fem snabbkopplingarna för vatten, (2xblå, röd, grön och brun). Se till att skruven längst ned på pelaren är utskruvad. Tryck sedan fast locket på pelaren. Skruva dit kupolmuttern längst upp.

Connect the power supply and the five quick connect couplings for water. (2xblue, red, green and brown). Make sure the screw at the bottom of the column is out. Then fasten the lid on the column. Fasten the screw on top according to picture.

Montera takstril, slang och handstril.

Assemble the shower head, hose and hand shower.
